

Pan-American Advanced Studies Institutes:

building network collaborations & mobility

- Funded by US DOE and five NSF Directorates (BIO, CISE, ENG, GEO, MPS)
- Regional involvement
- Supports foreign participants
- Graduate students, post-docs, junior faculty

Pan-American Advanced Studies Institutes:

building network collaborations & mobility

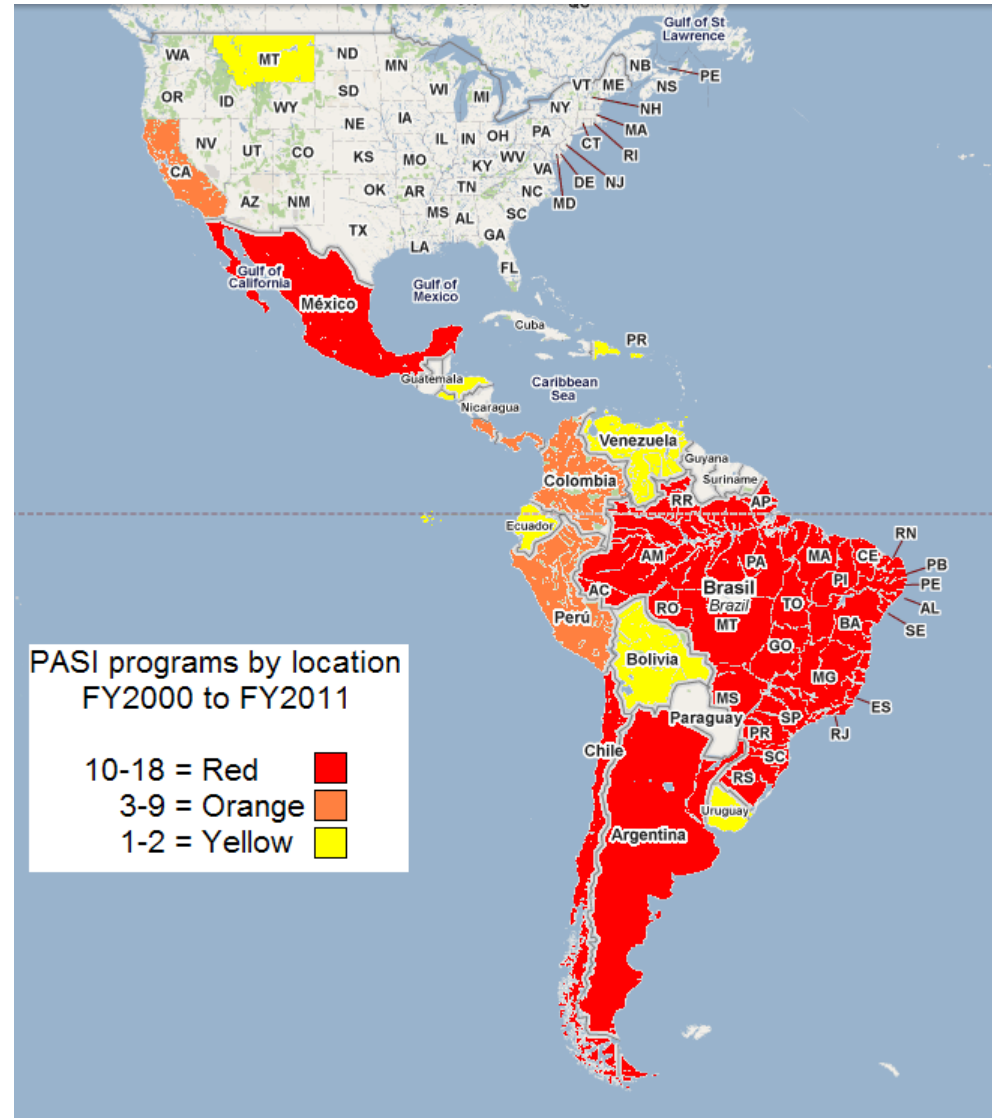

12 years of funding

for

91 institutes

across

19 locations

Pan-American Advanced Studies Institutes:

building network collaborations & mobility

- **Climate Change in the Americas;** La Paz, Baja California Sur, Mexico; January 2007. Organized by Walter C. Oechel.
- **Sensors for Environmental Observatories - An Interdisciplinary PASI;** Bahia Blanca, Argentina, March 2009. Organized by Thomas Harmon.
- **Energy, Water, and Global Change as a Regional Agenda of the Americas;** San Diego, California, February 2010. Organized by Asfaw Beyene.
- **Research on Climate Change and Hazards in the Americas,** Panama, July 2010. Organized by Patricia Solis

Pan-American Advanced Studies Institutes:

building network collaborations & mobility

PASI is Evolving

- Funds for videoconferencing
- Supplements for follow-up activities
- Increasing support to 150K
- Adding NSF rotators to internal review panel
- Linking with PIRE projects

Other water related funding opportunities at NSF

- **SEES** (Science, Engineering and Education for Sustainability) NSF 11-022
- **CNIC** (Catalyzing New International Collaborations) NSF 11-508
- **RCN** (Research Coordination Networks) NSF 10-566
- **WSC** (Water Sustainability and Climate) NSF 10-524
- **CNH**(Dynamics of Coupled Natural and Human Systems) NSF 10-612
